

KAVEESHA SANDEEPANI

Software Engineer Intern

 kaveeshasandeepanim@gmail.com  +94 76 173 4951  Colombo, Sri Lanka

 Kaveesha Sandeepani  Kaveesha Sandeepani  kaveeshasm

PROFILE

Computing and Information Systems undergraduate passionate about software engineering and building practical, reliable software solutions. Experienced in developing full-stack and AI-powered applications with a focus on programming, API integration, database management, and problem-solving. Interested in software design, system development, and building maintainable and scalable applications. Seeking a Software Engineering internship to apply and further develop my technical skills while contributing to reliable software.

EDUCATION

Bsc. (Hons) in Computing and Information Systems

2024 - Present

Sabaragamuwa University of Sri Lanka

Current GPA : 3.1

G. C. E Advanced Level (Physical Science Stream)

2022

Sumana Balika Vidyalaya - Rathnapura

PROJECTS

1. MindCare.lk - Digital Mental Health Support Platform (The University Capstone Project)

March 2026 - August 2026

A mobile platform designed to improve access to confidential and convenient support for young people in Sri Lanka. The system integrates an AI chatbot, professional counselor access, appointment scheduling, and low-bandwidth audio/video consultations using WebRTC.

- **Contribution:** Developed the article module and contributed to both frontend and backend development, implementing API integration, article management, filtering, content retrieval, and application functionality.
- **Tech Stack:** React Native, JavaScript, Firebase, Gemini API, WebRTC, Flask, Python, PyTorch, Expo, Node.js

2. MediciBot - AI-Powered Medicine Information Chatbot (Individual Project)

June 2026 - August 2026

Developed an AI-powered chatbot that processes natural-language medicine queries and provides structured medicine information. Implemented medicine recognition, API-based information retrieval, and error handling for brand names, misspellings, and varied user queries.

- **Tech Stack:** ReactJS, CSS, Google Gemini API, OpenFDA API

3. SmileHub - Dental Clinic Appointment Platform (Group Project)

March 2026 - August 2026

Developed a responsive web-based dental clinic platform that allows users to explore services, access clinic information, and manage appointment bookings through an interactive application.

- **Contribution:** Developed core frontend functionality, implemented responsive interfaces, integrated Firebase services, and contributed to the appointment booking workflow.
- **Tech Stack:** Next.js, Tailwind CSS, Firebase

4. GPA+ - Smart GPA Calculation & Comparison Platform (Individual Project)

October 2025 - November 2025

Developed a web application for calculating student GPA using year-based weighting and comparing academic results with data shared by other students.

- **Tech Stack:** Next.js, Tailwind CSS, Firebase

5. Webify.me - AI-Powered Presentation Generator (Group Project)

April 2025 - August 2025

Developed as a full-stack AI platform that transforms user ideas into structured and visually engaging presentations through an automated presentation generation workflow.

- **Contribution:** Developed the frontend of the application using ReactJS and CSS, implementing reusable components, user interactions, and integration with the presentation generation workflow.
- **Tech Stack:** ReactJS, CSS, Ballerina, Python, MongoDB

SKILLS

Technical Skills

Programming Languages: Java, Python, JavaScript, C, PHP, SQL
Software Development: Object-Oriented Programming, REST APIs, API Integration
Web Development: ReactJS, Next.js, HTML, CSS, Tailwind CSS, Bootstrap
Backend & APIs: REST APIs
Mobile Development: React Native, Expo
Databases: MySQL, Firebase Firestore
AI & APIs: Google Gemini API
Version Control: Git, GitHub
Development Tools: Visual Studio Code, Android Studio, Postman
Design: Figma

Soft Skills

- Problem Solving
- Critical Thinking
- Team Collaboration
- Communication & Presentation
- Adaptability
- Time Management
- Agile & Collaborative Development

Language Skills

- Sinhala
- English

CERTIFICATIONS

- Python - freeCodeCamp
- GIT, GitLab, GitHub Fundamentals for Software Developers - Udemy
- ReactJS for Beginners - Simplilearn
- Microsoft Azure Machine Learning Fundamentals - LinkedIn Learning Community
- Microsoft AI Skill Fest 2026 - Microsoft
- CCNA: Introduction to Networks - Cisco Networking Academy

ACHIEVEMENTS

- Finalist - Coderally 7.0, Informatics Institute of Technology (IIT)
- Finalist - Genesiz'26, General Sir John Kotelawala Defence University
- Semi-Finalist - Hack Like a Girl 3.0, SLASSCOM
- 1st Runner-Up - TensorForge'25, General Sir John Kotelawala Defence University
- Finalist - PearlHack V3.0, Sabaragamuwa University of Sri Lanka
- Final 10 Teams - Code Quest v1.0, Sabaragamuwa University of Sri Lanka

VOLUNTEERING

- Web Developer - Innovax 1.0, Sabaragamuwa University of Sri Lanka | Ongoing
- Web Developer - IEEE Computer Science Society, Sabaragamuwa University of Sri Lanka | Ongoing
