Kaveesha Sandeepani

Software Engineer Intern

kaveeshasandeepanim@gmail.com +94 76 173 4951 Colombo, Sri Lanka
Kaveesha Sandeepani Kaveesha Sandeepani kaveeshasm

PROFILE

Computing and Information Systems undergraduate passionate about software engineering and building reliable, scalable applications. Experienced in full-stack and AI-powered development, API integration, database management, and problem-solving. Seeking a Software Engineering internship to apply my technical skills, gain industry experience, and contribute to practical software solutions.

EDUCATION

Bsc. (Hons) in Computing and Information Systems 2024 - Present
Sabaragamuwa University of Sri Lanka
Current GPA : 3.1

G. C. E Advanced Level (Physical Science Stream) 2022
Sumana Balika Vidyalaya - Rathnapura

PROJECTS

1. MindCare.lk - Digital Mental Health Support Platform (The University Capstone Project)

A mental health platform for Sri Lankan youth, offering AI support, professional counseling, appointment scheduling, and low-bandwidth audio/video consultations.

- **Contribution:** Developed the article module and contributed to both frontend and backend development, implementing API integration, article management, filtering, content retrieval, and application functionality.
- **Tech Stack:** React Native, JavaScript, Firebase, Gemini API, WebRTC, Flask, Python, PyTorch, Expo, Node.js

2. Ryde - Real-Time Cloud-Based Ride-Hailing Platform (Individual Project) | Ongoing

Ryde is a cloud-based ride-hailing application with real-time GPS tracking, nearby driver matching, trip management, and secure payments.

- **Contribution:** Developed the mobile application frontend using React Native, focusing on the user interface and user experience for the rider and driver applications
- **Tech Stack:** React Native, Go, AWS Cloud Services

3. CareSync - Patient Management System (Individual Project) | Ongoing

A web-based patient management system designed to manage patient records, appointments, medical information, and role-based access for patients, doctors, and administrators.

- **Contribution:** Developing the full-stack application, including the Angular frontend, RESTful APIs, database integration, and role-based access control
- **Tech Stack:** Angular, Spring Boot, PostgreSQL

4. MediciBot - AI-Powered Medicine Information Chatbot (Individual Project)

Developed an AI-powered chatbot for natural-language medicine queries, integrating medicine recognition, API-based information retrieval, and error handling for brand names, misspellings, and varied user inputs.

- **Tech Stack:** ReactJS, CSS, Google Gemini API, OpenFDA API

5. SmileHub - Dental Clinic Appointment Platform (Group Project)

Developed a responsive dental clinic platform for exploring services, accessing clinic information, and managing appointments through an interactive web application.

- **Contribution:** Developed core frontend functionality, implemented responsive interfaces, integrated Firebase services, and contributed to the appointment booking workflow.
- **Tech Stack:** Next.js, Tailwind CSS, Firebase

6. GPA+ - Smart GPA Calculation & Comparison Platform (Individual Project)

Developed a web application to calculate student GPA using year-based weighting and compare academic results with other students.

- **Tech Stack:** Next.js, Tailwind CSS, Firebase

7. Webify.me - AI-Powered Presentation Generator (Group Project)

A full-stack AI platform that transforms user ideas into structured, visually engaging presentations through automated generation.

- **Contribution:** Developed the frontend of the application using ReactJS and CSS, implementing reusable components, user interactions, and integration with the presentation generation workflow.
- **Tech Stack:** ReactJS, CSS, Ballerina, Python, MongoDB

SKILLS

Technical Skills

Programming Languages: Java, Python, JavaScript, C, PHP, SQL
Software Development: Object-Oriented Programming, REST APIs, API Integration
Web Development: ReactJS, Next.js, Angular, HTML, CSS, Tailwind CSS, Bootstrap
Backend & APIs: REST APIs
Mobile Development: React Native, Expo
Databases: MySQL, Firebase Firestore
AI & APIs: Google Gemini API
Version Control: Git, GitHub
Development Tools: Visual Studio Code, Android Studio, Postman
Design: Figma

Soft Skills

- Problem Solving
- Critical Thinking
- Team Collaboration
- Communication & Presentation
- Adaptability
- Time Management
- Agile & Collaborative Development

Language Skills

- Sinhala
- English

CERTIFICATIONS

- Python - freeCodeCamp
- GIT, GitLab, GitHub Fundamentals for Software Developers - Udemy
- ReactJS for Beginners - Simplilearn
- Microsoft Azure Machine Learning Fundamentals - LinkedIn Learning Community
- Microsoft AI Skill Fest 2026 - Microsoft
- CCNA: Introduction to Networks - Cisco Networking Academy

ACHIEVEMENTS

- Finalist - Beauty of Cloud 2.0, University of Sri Jayewardenepura
- Finalist - J'PuraXtreme 3.0, University of Sri Jayewardenepura
- Finalist - Coderally 7.0, Informatics Institute of Technology (IIT)
- Finalist - Genesiz'26, General Sir John Kotelawala Defence University
- Semi-Finalist - Hack Like a Girl 3.0, SLASSCOM
- 1st Runner-Up - TensorForge'25, General Sir John Kotelawala Defence University
- Finalist - PearlHack V3.0, Sabaragamuwa University of Sri Lanka
- Final 10 Teams - Code Quest v1.0, Sabaragamuwa University of Sri Lanka

VOLUNTEERING

- Web Developer - Innovax 1.0, Sabaragamuwa University of Sri Lanka | Ongoing
- Web Developer - IEEE Computer Science Society, Sabaragamuwa University of Sri Lanka | Ongoing
- Web Developer - Organizing Committee, PearlHack V4.0, Sabaragamuwa University of Sri Lanka | Ongoing
